Overall Landscape of the Healthcare Technology Sector

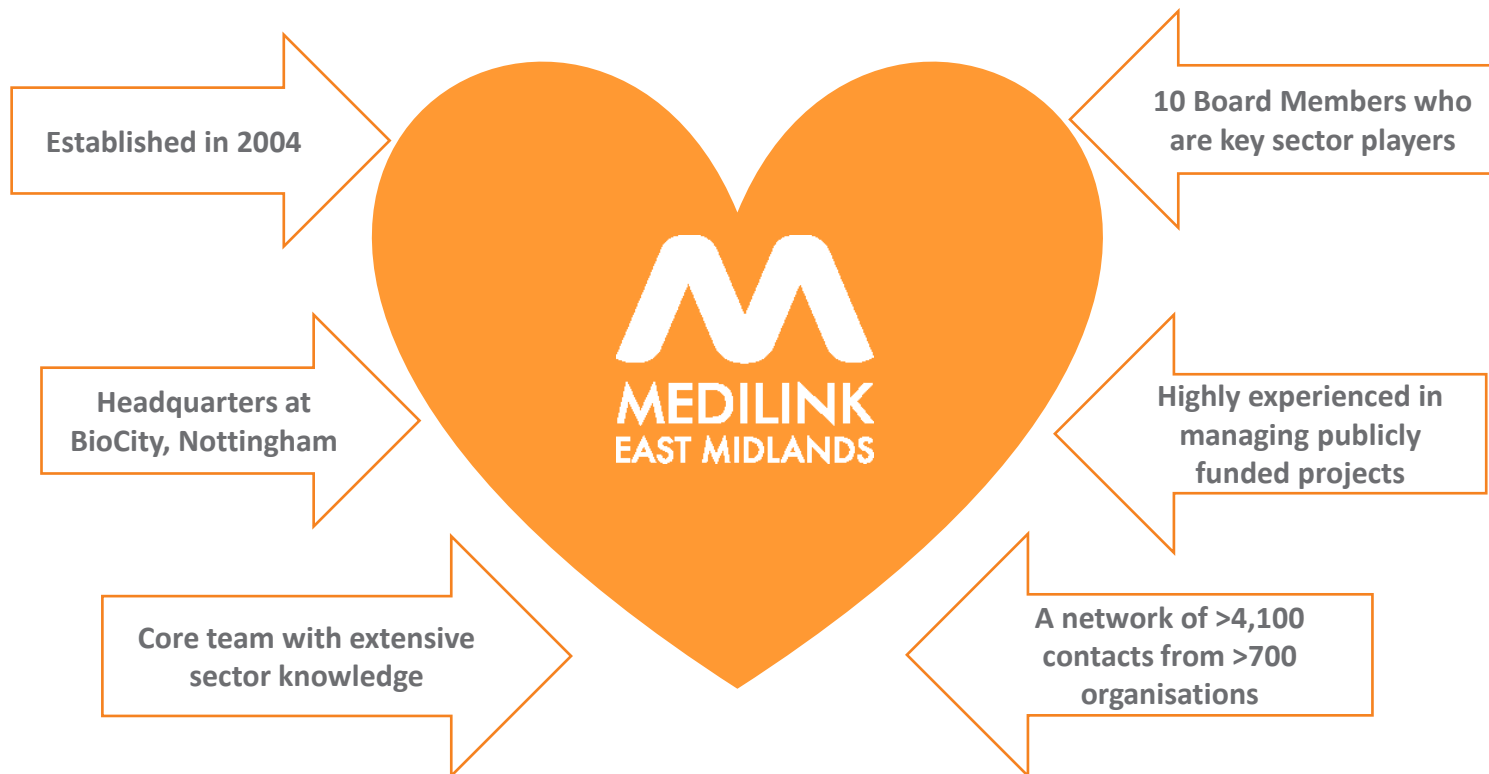

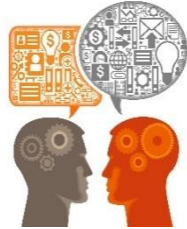

- £850 bn Global Market
- 8-10% annual growth predicted over next 10 years
- R&D spend ratio >10%
- Highly skilled workforce
- High value jobs:
 - £33,960 average scientist / engineer salary
 - £68,575 average senior manager salary
- Highly complex & regulated market

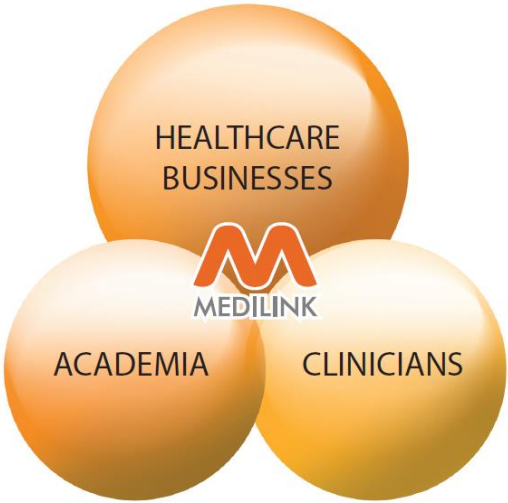

About Us

- The industry association for Life Sciences & Health Technologies
- We are a membership based, not-for-profit organisation
- One of the biggest ways in which we help companies is by facilitating collaborations

What we do

How do we fit in Nationally?

We are a founding member of

“A federation of regional organisations who have been providing sector support for two decades and collectively is the UK’s largest healthcare representative body with 1,500 members”

More recently: MEM lead for Medilink UK at the UK MedTech Forum, the MHRA Med Devices Industry Liaison Group, the ABHI Technical and Regulatory Policy Group, the KTN Health Board and the Ministerial MedTech Strategy Group (MMTSG)

Accelerated
Access

- Facilitating views of regional SMEs
- Supporting Office for Life Sciences

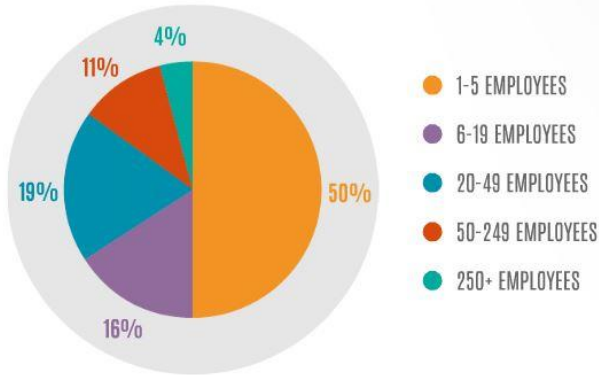

For the third year running we are working with Med-Tech Innovation to deliver a national Med-Tech event
